

Siemens has been present in Brazil for 100 years and is the biggest company in the country's electrical engineering and electronics market, with business activities in Automation and Control, Power, Medical, Transportation, Lighting, Information and Communications.

Key Project

The Automation and Drives Group (A&D) automated Sadia's margarine plant with a Simatic PCS 7 and MES software; began supplying the Sinumerik 802D-SK with Sinamics-S 120 drives to ROMI, one of Brazil's leading tool machinery companies; implemented a flow measurement system on 125 Coca-Cola bottling lines; was awarded the first global conveyor technology and automation project by Honda; and made its mark on the alcohol and sugar industry by providing automation, instrumentation and electrification for grinders.

Key Figures

In fiscal 2006 (October 1, 2005 – September 30., 2006), sales to customers in Brazil totalled EUR 1.808 billion, while new orders amounted to EUR 1.824 billion. At present, Siemens in Brazil has approximately 12,500 employees, eight R&D centers, 15 manufacturing facilities and 12 regional sales and service offices throughout the country, plus three representatives in Bolivia and Paraguay.

Scholarships

Siemens Brazil will offer 2 scholarships per year with 250 €/month for 24 month each for students from Brazil, who will join the branch of studies in Electrical Power Engineering. Application for these scholarships will be possible after admission to the master programme in Power Engineering at BTU Cottbus and should be send with the relevant documents (CV, bachelor degree, transcript of records, letter of motivation, admission to the master programme Power Engineering at BTU Cottbus) directly to the contact address below. Siemens Brazil will expect that the promoted students will join one of the Siemens factories in Brazil for their internship and external supervised master thesis in the 4th semester of their studies.
